# WELFARE UNITS

## MOBILE WELFARE UNITS

Towable units are suitable for accommodating six people, which provides pleasant and safe working environments, ideal for contractors. Easily towed, one man operation secured and manoeuvred on site in less than 3 minutes. Equipped with; canteen area, private WC and drying room.

## STATIC WELFARE UNITS

Available in a standard or eco specification, these static welfare units can accommodate up to 8 or 12 people.

Typically equipped with: separate drying room, private WC, integral noise-reduced diesel generator, lighting and electrics, heating and water heaters, office/canteen area, integral water and waste tanks, full steel anti-vandal construction.

## WELFARE VEHICLES

Our welfare vehicles provide a comfortable rest area for your transient workforce with all-important heating, hand washing, eating, hot water and toilet facilities.

Utilising medium-wheelbase vans with a six, seven or eight-seat mess welfare conversion, our vehicles come with a robust, fully-lined interior and all parts are legislation-compliant. So when you win a new contract and need your people on site fast, you don't need to worry about lengthy welfare mobilisation times.

# PORTABLE TOILETS

7

## SOLAR HYBRID TOILETS

With a clean, clear odourless flush, hot running water, plenty of light, a cosy heated interior and a top-rated environmental performance, you can provide inviting facilities to male and female employees on site.

## SERVICELOOS

Serviceloos are a tough, durable and self-contained portable toilet with hassle free operation. We operate a weekly schedule to empty, clean and replenish consumables for the duration of the portable toilet hire, in compliance with all current health and safety regulations.

# SITE STORAGE

## STORAGE CONTAINERS

Our high security storage containers are available to hire in 10ft and 20ft. Fitted with lock blocks to protect against pick, drill and saw attacks, and also prevents unauthorised duplication of keys.

## SECURITY STORES

These units have been designed especially for the construction industry, for example our 21ft x 9ft unit has been built to accommodate standard six meter pipe lengths and also two rows of 4ft x 2ft pallets. Security Stores are available in sizes from 10ft x 8ft up to 32ft x 10ft.

# CABINS

## ECO ANTI-VANDAL CABINS

Eco Anti-Vandal Units can help to deter unwanted attention from opportunistic thieves. These are available in an extensive range of layouts and sizes. The units can also be linked and double stacked to allow for further flexibility to suit all of your requirements.

Suitable as: offices, canteens, toilets, showers, training rooms, drying rooms, meeting rooms, changing rooms, first aid rooms.

We also supply a wide range of furnishings and white goods for your units.

## SLEEPER UNITS

When staff or contractors are working long hours on-site or at an event, our Sleeper Unit provides ideal on-site, anti-vandal sleeping accommodation for up to four members of staff. With two bedrooms that can be equipped with either single or bunk beds, this unit is very well designed and offers comfortable living and sleeping space, keeping employees motivated and refreshed.

## FIRE RATED CABINS

These fire rated buildings range can contain fire for 30 minutes under BS476. Also fully comply with requirements for fire resistance in the Joint Code of Practice on the Protection from Fire of Construction Sites and Buildings Undergoing Renovation

Suitable for a wide range of uses, including site offices, mess rooms and storage, the all-steel Surefire range can be double stacked and is anti-vandal insurance certified, making this fire rated building range a market leader.

The robust construction of Surefire makes extensive use of non-combustible Galvalite steel, ensuring long-life and durability. Roof and wall cavities are insulated with non-combustible glasswool fibre, and floor insulation is available as an option.

# SERVICES

## PROJECT MANAGEMENT

Project Managers' have the experience and knowledge required to plan your project activities, evaluate its progress and to implement a successful delivery of the project, ensuring that all targets are achieved and that you are satisfied with the service you receive.

Our Project Managers will create and deliver accurate project work plans, lifting plans and safe systems of work to meet specific site requirements. Allowing us to be able to revise and adapt to meet changing needs, with minimum delay to your project.

## CONTACT CENTRE

The Contact Centre team are your one point of contact, where you only have to make one call and we'll sort it all! We deal with the whole process - from the initial enquiry to the actual order and dealing with the relevant dedicated depot.

We also process off-hires, liaise with Project Managers, process breakdowns, deal with damage and loss, and compliance checks for rehire contracts to ensure the whole process runs smoothly.

▲ The Contact Centre provides a valuable link between the VINCI plant department, our construction sites, and the supplying service centres. Allowing excellent communication to get the job done right first time. ▲

## CASE STUDY

# TUNSTEAD CEMENT PLANT

DERBYSHIRE

CUSTOMER NAME  
**Tarmac**

DURATION  
**16 weeks**

SECTOR  
**Cement Production Plant**

An annual maintenance shutdown is carried out at Tunstead cement plant, during which many different contractors with a range of specialist skills are used. A temporary accommodation complex was needed to provide welfare facilities, canteen areas, offices, drying rooms, changing rooms and toilets for the shutdown team comprising over 120 operatives.

### THE CHALLENGE

The accommodation units were required not long after the Christmas break and the quarry shutdown was brought forward by a week. The team at our Manchester depot ensured that the units were delivered and fully operational by the required deadline. A Project Manager also supported Tarmac with the full planning process, providing detailed lifting documents and planning deliveries. This was originally a four day installation due to the amount of accommodation units being delivered, but we were able to get the whole site installed in just two days..

### THE SOLUTION

The team at our Manchester depot supplied 25 high quality accommodation units to the customer's exact specification. The kitchens, walls and doors had to be in specific places to suit the site set-up and the team also met the requirements for early delivery. The units were delivered on a 82T front loading HIAB - one of the newest vehicles operated by our haulage provider.

▲ Thanks to all at Sunbelt Rentals for the timely and professional delivery and installation of the accommodation for this year's shutdown, especially in view of the challenges and the Buxton weather. ▲
