

CONFINED SPACE TRAINING

CITY & GUILDS 6160-08 LEVEL 3 AWARD IN WORKING AS A MEMBER OF A RESCUE AND RECOVERY TEAM IN CONFINED SPACES

This course is for anyone who works as part of a rescue and recovery team in confined spaces.

It includes preparing to carry out emergency activities, entering and exiting confined spaces safely, using emergency equipment, casualty recovery and handling devices in accordance with manufacturers' specifications, rescuing and recovering casualties, following procedures and working safely.

The aim of this unit is to reflect the national occupational standard for working as a rescue and recovery team member in confined spaces. This unit covers both water and non-water industry areas.

Water: where the operative is working in or near water, or where a confined space is subject to surface water flooding. This may include working with potable water, sewage treatment processes, drain and sewer cleaning operations.

Non-water: this may include pharmaceutical, petrochemical, asbestos removal, vehicle manufacture and servicing, aeronautical, construction, communications, power, utilities, gas, electrical and mechanical engineering and some elements of work operations in mines, quarries and tunnelling.

Learning outcomes:

1. Oversee safety checks of the entry and rescue teams prior to commencing work.
2. Enter and exit confined spaces safely as part of a rescue and recovery team.
3. Use equipment and tools safely.
4. Follow procedures and work safely as a member of a rescue and recovery team.
5. Understand the principles of working as part of a rescue and recovery team.
6. Understand standard protocols for working in rescue and recovery teams.

Delegates attending this course must have an in-date City & Guilds High Risk qualification (6150-03 or 6160-03)

Delegates attending this course must be clean shaven

Maximum Delegates: 10

Course Duration: 24 hours (3 days)
